

GHT Series Home Theater

GHT-CSUR-G

GHT-66G

GHT-SUR-P

One of TruAudio's foundation products, the HT Series has given professional installers the ability to provide excellence in home theater for years. Now the GHT is fitted with our patented Ghost grill technology to become the GHT Series. Minimal, rimless reveal (2mm) and one-trip installation are just a few of the Ghost features. Another TruAudio innovation for the GHT Series is the "Wave Guide" tweeter (straight or 22°). The Wave Guide gives the installer the flexible option of directing the sound stage to fit any room.
